"From the moment a colleague introduced me to Kids' Chance back in 2001, I have been a passionate advocate for the mission of this wonderful organization. I am truly thankful for the opportunities I have had to serve in many capacities over the years with both Kids' Chance of PA and Kids' Chance of America, as they have been some of the most meaningful experiences of my personal and professional life. Witnessing the positive impact that we make in the lives of the children and families of injured workers and being part of the Kids' Chance community have made me a better workers' compensation professional and a better person."
